

yelster digital gmbh is part of the Solocal Group, the leading digital marketing company in France. Our mission is to enable our clients to grow their businesses by boosting their online presence and visibility.

Solocal Manager is a web presence management system developed by us for small and medium business owners. Our solution enables ~500k entrepreneurs to create and share their content using Yellow Pages, Google My Business, Facebook and ~20 other such services, and to interact with their customers using chats, reviews, etc - all that collected in a single, user-friendly web application running in a browser and on mobile devices.

Python Backend Developer (m/f/d)

Full time position in Vienna

Your tasks

- design, implement and review code for an event-driven RESTful web service
- increase test coverage by writing automated tests
- improve code quality by refactoring proactively
- document your work and actively communicate within the team
- contribute to architectural decisions by proposing and reasoning about improvements

Our technology stack

- Python, Django, Django REST framework
- Celery, RabbitMQ, Redis
- PostgreSQL
- OpenAPI, Swagger UI
- Docker, Kubernetes
- Git, GitLab

Your profile

- 2+ years of experience developing web APIs using Python and Django
- experience in developing RESTful web services and integrating them with external systems
- familiarity with service-oriented architectures, e.g. microservices
- experience in a Scrum development team, ideally in an international, distributed organization
- fluency in written and spoken English (German or French appreciated)

What makes you the right match?

- programming passion, curiosity and eagerness to learn and share
- readiness to work with other people's code to collaboratively and constantly improve our code-base
- ability to give and take constructive feedback
- independent, precise and well-structured working style
- responsibility, commitment, team playership

Our offer

- full-time position with a long term career perspective
- opportunity to grow your professional skills by tackling complex technical challenges
- well connected office located in the heart of Vienna (rooftop terrace with BBQ)
- 2 additional paid vacation days after 2 years with us
- possibility to work in home office

The minimum salary for this position is € 46.000 gross per year based on full-time employment (38,5 h/week). The actual salary will take into account your individual skills and experience.
